ITALIAN FIELD LABORERS

HOME GOVERNMENT SAYS THEY
MAY COME.

Humbert Says Hawaiian Labor System
is Satisfactory and That His Peas-
ants are Available.

Plans are making today for the introduction of a large number of Italian laborers into the cane fields of Hawaii. A meeting of the trustees of the Sugar Planters' Association was held this morning at which the ground work for bringing the Italians was laid. It will be submitted as soon as possible to a general meeting.

Consul F. A. Schaefer has succeeded in bringing about this new and promising labor market. In the past nine months several letters have passed between him and the government at Rome respecting the matter. The consul impressed the fact that only the best of peasant labor was desirable here, and the Italian government secured from its local representative all information concerning the contract system, treatment of laborers and other details.

A few months ago Mr. Schaefer sent to the Italian government copies of the labor contract, labor laws and full descriptions of plantation accommodations. Attention was also drawn to conditions as they would be when American laws were extended over the islands and the contract system abolished.

By the last mail Consul Schaefer received a letter from Rome stating that the contract and general plan were satisfactory. The Italian government would permit the enlistment and shipment of unlimited numbers of the peasant class of labor from the northern part of the kingdom. In dealing with the laborers, both in shipment and on the plantations here, the Italian government desired to follow the same plan practiced in the labor transactions between Hawaii and Portugal.

Mr. Schaefer stated this morning that if the scheme was acceptable to the planters the laborers would be shipped from Genoa, some by way of Japan and some via Sydney. They will come by the German-Lloyd boats, some of which sail from Italy to China and Japan and others to Australia. Arrangements could be made for the immigrant boats to come on over the same routes to Honolulu.

The number of Italians to be brought will depend altogether upon the will of the planters. It is primarily assumed that 10,000 will be asked for to be shipped during the year. It is not thought that so many can be procured on such short notice, and that about 5,000 will be all that may arrive here.

Consul Schaefer has been warmly commended on his good work. The results come at a time when the labor problem is more serious than ever, and an unexpected and gratifying outlook is presented.

STOCK EXCHANGE

Sales: Between boards, 200 Oahu 21; 15 Hawaiian Agricultural 290.

Sales: On the board, 30 Oahu 295; 10 Oahu 295; 20 Oahu 295; 40 Oahu 295; 10 Honolulu 422 1/2.

NOW CLEARING FOR ACTION

NAVAL STATION AREA CLEARED
OF OBSTRUCTIONS.

License to the Public to Use it is Re-
voked so That Work May Proceed
Without Delay.

Consul-General Haywood gives notice that the general license he has heretofore extended to carpenters and others to frame timbers and make similar use of the unused part of the area reserved by the President for a Naval station on the water front, is revoked. No trespassing of any kind will be permitted.

This order is positive, but it is not issued in any spirit of arbitrariness, but simply as a necessity of the conditions of the contract for the Naval station work. In fact the order is due to the fact that the work is to proceed at once. The contractors are under heavy bonds to complete their work in a specified time, and for any delays due to obstructions on the land reserved they can hold the government responsible. As the public is interested in the speedy completion of the work it is really interested in the order and in its strict enforcement.

Consul-General Haywood when asked about the order said: "As long as the vacant land on the reservation was not needed for government work, carpenters and others were allowed to use it for framing timbers and other work of that kind. But now the contract has been let, and the contractors have notified me that they are ready to begin work. They have the right to be absolutely unhampered by obstructions of any kind, and hence in justice to everybody and in protection of the government, this notice has become necessary and imperative."

"There is a portion of the reservation back of Waterhouse's warehouses, mauka of Halekawa street which is now occupied by a pile of army coal under the control of Colonel Rubien. Until further orders this may be used for framing timbers and similar purposes, so long as the handling of coal is not interfered with."

"This notice would have to come some time or when the Naval station is complete of course the government will have exclusive possession of it."

The government naval station reservation extends from lot 56 on Richard street, mauka of Halekawa street and extends down Richard street to the water front at the outer edge of the Pacific Mail wharf; thence along the water front to the line of the Bishop estate property; thence mauka along that line across Puncbowell street to a point about intersecting Halekawa street extended; and thence by an irregular line to the point of beginning. It includes all the land on which the government coal sheds are located, the vacant land between them and the water front, besides land back of them and in the direction of Kakaeka.

The work which is to commence at once is the dredging of two slips and the construction of two wharves between the Pacific Mail wharf and the Bishop estate property. One of the wharves is that already partly constructed adjoining the Pacific Mail wharf and extends along the line of Richard street from Allen street to the water front. It will be 465 feet long and 80 feet wide. The other wharf will occupy all the space between the two slips. It will be 210 feet wide at the Allen street retaining wall at the outer end and 360 feet long.

The slips are to be dredged to 28 feet below mean low water. The sides of the dredged area, shall be finished vertical if the material will stand. The dredged material is to be deposited on the land included in the reservation. Hence the necessity for clearing it of all obstructions which is the purpose of the notification Consul-General Haywood has given.

The Pilot house is to be moved to the end of one of the new wharves by the government. It will be provided with the same facilities for launching and caring for the pilot boats that it has now.

The contractors, the California Construction Company, has already begun preliminary work, and is landing its lumber and building tool houses.

THE GLEANERS.

The plans for the Gleaner's lawn party will soon be completed. This, as before announced, will be held at the home of W. R. Castle, May 27. Among the attractions to be offered are Hawaiian souvenirs, dinner cards and chicken tamales. The fortune teller will read hands and other entertainments, not yet announced, will make the afternoon a sure success.

J. O. CARTER.

J. O. Carter has returned to town. Mr. Carter is much improved by his sojourn at Waianae and Wailua. He has enjoyed horse back riding and says he is now as able to tackle business as ever he was. Mr. Carter's many friends were delighted to welcome him back so thoroughly rested and healthy.

"The Academie de Medicine of France has placed

("The Queen of Table Waters") at the head of all the waters examined for purity and freedom from disease germs."

MACFARLANE & CO., LTD.,
Agents, Honolulu.

WILL ECLIPSE ALL OTHERS.
L. B. Kerr commences tomorrow morning a sale that will eclipse all previous sales. He announces a 25 per cent reduction on staple dry goods.

MORE OF THEM USED.
There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

If you want a new carriage or your old one repaired call on W. W. Wright.

A NEW STOCK EXCHANGE

MEETING THIS AFTERNOON TO
ORGANIZE.

May Hold Afternoon Sessions Thus
Giving Two Quotations Daily—Other
Features of Organization.

A meeting is being held this afternoon for the organization of a new stock exchange. The call for the meeting was signed by J. S. Walker, E. C. Winston, J. H. Schnack, James H. Love, Charles Phillips, William Savidge, H. P. Eakin and E. R. Brown. The meeting was called to meet at the office of J. H. Schnack at 2 o'clock. One of the proposals considered in connection with the new organization is that it shall hold its sessions at 1 o'clock in the afternoon, thus giving, with those of the Honolulu Stock Exchange two quotations a day.

Another proposal is that all stocks and securities which are dealt in in this market shall be called on the exchange whether the corporation has been fully organized and it stocks listed or not. The reason for this is that especially during the past few months, the most active trading has been in the stock of corporations that were in the process of organization, such for instance as Wailua, Kihel, Nahiku and Olaa. But before they were listed there were no quotations for a stock which is one of the purposes of an exchange to supply.

The new project has been discussed very fully among those who are interested in it, and the meeting to organize was not held until the whole situation was thoroughly discussed.

WAILUKU TO HAVE WATER

EXPENDITURE FOR SYSTEM IS
AUTHORIZED.

Superintendent Rowell Instructed to
Invite Tenders—Hilo Water Works
Improvements.

The Wailuku water works will go ahead. A start will be made at once. George Hons and the other lao howlers may now rest easy. The Cabinet has set aside the sum of \$15,000 to begin work. A right to the lao water has already been secured and the paper relating the transfer is in possession of the government. Superintendent Rowell has been instructed to advertise for material for putting in the system.

The Wailuku water works will extend over both the town of that name and Kahului. It is planned to have the reservoir above the former. Piping to Kahului will follow the railway, on the land side.

Hilo water works are also to be improved. An appropriation for this purpose was passed by the last Legislature. The Cabinet has authorized the immediate expenditure of \$5,000 for addition to the water pipe system of that town.

A request from the board of health to have the mule stables removed from near the hospital at Hilo has been granted. The kick was made by Hilo doctors on account of the appearance of typhoid fever there. Superintendent Rowell has been instructed to remove the stables.

The application of C. M. Cooke to exchange six acres of land near the valley electric light station for twelve acres of government land at Luakaka was refused, for the principal reason that the land desired by Mr. Cooke is within the reserve for water purposes.

Veterinary Surgeon Shaw asked the privilege of being allowed to use his discretion in the time of examining imported cattle for tuberculosis. The reason of this is that at certain times it is necessary to postpone these examinations. The privilege was allowed.

FULL HOUSE THE RULE.

The new program at the Orpheum was well received last night. It is useless to remark that there was a good audience, as the Orpheum plays to full houses every night now.

The dancing feature is the fire dances of Glorine. They are truly wonderful and no one should miss seeing them. All the new people have exceeded what was expected of them, and the aggregation gives a better vaudeville show than has been seen in most cities on the mainland.

"The funny comedy 'Marriage in the Dark' will be repeated tonight."

NEARING THE CLOSE.

The Kahuku murder case will likely be finished up this afternoon. Whether a verdict will be reached by the jury before the regular hour for adjournment can not now be fore told. The defense closed its case yesterday. This morning Attorney Robertson began his argument for the defense. He continued until noon and resumed his remarks after the lunch hour. Mr. Robertson will be followed by W. O. Smith, who will present the case for the Government. The matter will thereupon be submitted to the jury.

GOOD LUCK.

Luckily Thomas Jefferson has gone where they dine no more—The Plaindealer, Cleveland.

WHOOPIING COUGH.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by all dealers and druggists, Benson, Smith & Co., general agents, Hawaiian Islands.

BAD WATER ENCOUNTERED

GOVERNMENT RUNS ON A SNAG
IN PALAMA.

Fluid in a Favorite Locality Found to
be Brackish—Other Wells will be
Investigated.

The water works department is at a halt respecting a pumping station for Palama. All is on account of the discovery of brackish water in the artesian wells now in operation in that quarter of the town.

The trouble came to light when Andrew Brown took a gallon of water from the Simon Kahe well at the Ex-Queen's place to have it examined. Chemist E. C. Shorey found in the water a quantity of deleterious material and it was ruled unfit for use.

This opened the eyes of the department. Mr. Brown has now taken samples for every well in the district and will have them all analyzed. He hopes to find in one a sample of pure water. In such case he will locate the station near it. The superintendent specially desired that a suitable location for the station would be found in the neighborhood of the new Palama school. Indications now are that that will be quite impossible. It may be found necessary to go farther up toward the Insane Asylum, or even farther toward Kalia.

It is proposed to put in two 12-inch wells in Palama. This will make a station of about the capacity of the one on Beretania street.

THE ROPE BROKE.

Resulting in Severe Cuts to John
Ariani.

John Ariani, a Portuguese about 30 years of age, was accidentally injured about noon today. He was assisting in hoisting a printing press up the stairs leading to the offices formerly occupied by Alexander & Halden. The press weighs several hundred pounds and was being run up on skids by means of a rope and tackle. When the press was almost at the top a splice in the rope gave way. Ariani was on the stairs just behind the press and when it fell back he was caught. He received several severe cuts and bruises on the face and head, and another on the right shoulder. His injuries, however, are not serious. He was taken to his home on Puncbowell.

In falling, the press was broken. Some damage was done to the stairway and a quantity of photographic material belonging to C. B. Andrews was broken by the jar.

FUNERAL OF GILLESPIE.

Many Floral Pieces Were Sent to the
Grave.

The funeral of William Gillespie was this morning at 11 o'clock from the Queen's hospital directly to the Catholic cemetery on King street. Rev. Father Valentine officiated. Among those who attended were Fred Whitney of W. G. Irwin & Company, Captain and Mrs. Harry Evans.

There were a number of floral pieces sent. Mrs. Wilder sent a beautiful cross. Captain and Mrs. Evans sent a number of pieces among them an anchor, a cross, and several wreaths. Under the direction of Captain Evans photographs of the grave and decorations were taken to be sent to Gillespie's mother and sister and for members of the crew of the Australia.

OFF FOR THE COAST.

The schooner W. H. Talbot and the schooner E. S. Redfield sail tomorrow for Puget Sound. The German steamer ship Fung Tai will sail this afternoon for San Francisco.

CITY OF COLUMBIA.

The City of Columbia is anchored near the marine railway. A diver is at work on the leak near her stern post.

THE WEATHER.

Bureau, Punahou, 1:30 p. m.
Wind light southwest; weather fine; likely to be more rain, especially in the north section of the island.
Morning minimum temperature 65; midday maximum 81; barometer 29.96; steady; rainfall .86; humidity 73 per cent; dew point 67.

CURTIS J. LYONS, Observer.

CALLED ON PRESIDENT.

British Commissioner Hoare was a caller on President Dole at the Executive building at noon today.

HISTORY OF HAWAII.

The new edition of Alexander's Hawaiian history with the "unauthorized" chapter added, is on sale at the Golden Rule Bazaar, 316 Fort street. It is sold at publisher's price, \$1.50.

HONOLULU DRUG COMPANY.

Are now prepared to serve their celebrated Philadelphia ice cream at their fountain, to families in quantities to suit. Take home one of those delicious packages to your wife and note what a sweet—and smile she will give you, which should be worth many times the price paid.

AMERICAN MESSENGER SERVICE.

Masonic Temple, Telephone 344.

CUT IN HALF.

Fifty per cent reduction means cut in half. That is what L. B. Kerr has done to prices on ladies' shirt waists. Early comers will get first choice.

MAY DELINEATOR.

Now ready at Mrs. Hanna's, Fort street. A full line of trimmed and untrimmed hats for sale at moderate prices.

WILL EXHIBIT AT OMAHA

THE CHAMBER OF COMMERCE SO
DECIDES.

Report of the Committee Received
With Favor—Will be Printed and
More Fully Considered Monday.

The Chamber of Commerce has formally and fully approved the proposition for an extensive and worthy exhibit at the Greater American Exposition at Omaha. While not finally adopting the report of the committee on the subject of what shall constitute that exhibit, it accepts the report as expressing the general views and intentions of the chamber, and in effect as offering a working plan of which the details will be considered further.

The chamber met just before noon today. The report of which the following is a summary was read:

First—The appointment of a commission to collect exhibits from this island, Hawaii and the other islands.

Second—A proper exhibit will cost \$10,000 as follows: Collection of exhibits \$2000; president's expenses \$1000; salary secretary \$1000; expenses of secretary \$500; quintette club \$2500; photographic views \$500 freight \$700; running expenses at Omaha, including service of coffee, purchase of cream and sugar and salaries of girls in connection therewith \$1400; stenographer to commission \$250.

Third—The committee believes this is the time and Omaha the place for the labor questions to be worked out to the best advantage. It is suggested that Colonel Whyte, who will visit the States with stereopticon lectures, make Omaha his headquarters. He will be assigned a place in the Auditorium building for his lectures.

Section four points out the advantages of the exposition in the way of interesting capital and tourist travel in the islands.

Section five recommends that A. S. Cleburn be appointed president and Daniel Logan secretary of the commission to Omaha.

Section six recommends a liberal display of products, educational work, art, photographs, trees, shrubbery, and a fine collection of antiquities, also coral, shells and curios of every description. It is also suggested that if arrangements can be made with the St. Louis manufacturers a sugar mill in full operation be shown.

Section seven recommends that a native quintette club be procured to furnish music at the exposition.

Section nine recommends that an urgent invitation be issued to citizens to contribute or loan desirable articles for exhibition at Omaha.

The report is signed by R. W. Shingle, J. J. Egan, W. W. Hall and E. C. Macfarlane.

The proposition to send the quintette club caused some hesitation on account of the expense, but it was warmly advocated by L. A. Thurston, who spoke on the matter by invitation, and by a number of others. Mr. Dillingham suggested a number of ways by which interest could be aroused in the exhibit directly and indirectly through the quintette club.

It was announced that it was almost a certainty that the Government band would go. The exposition has appropriated \$1800 a week for band music. Professor Harker's \$2900 a week will be necessary to defray the expenses of transportation, etc. for the band. But this difference it was stated, could be adjusted.

On A. J. Campbell's motion the chamber declared its approval of the project to make a worthy exhibition.

W. G. Irwin while approving the project, moved that the report be printed for the use of the members and that the final determination of plans and details be made at a meeting to be called in a few days. This was adopted and the meeting was announced for 2 o'clock Monday.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

GREAT SCARCITY OF RAW SILK.
But no scarcity of the manufactured article as far as the Sachs Dry Goods Company is concerned. They are offering some lovely goods, all recent importations. Also a lot of pure silk French taffetas for 25 cents per yard that cannot be duplicated.
